

RCP 6014
PATENT

IN THE CLAIMS:

Please cancel claims 1-10 and 12-14 as follows:

Claims 1-10 (canceled)

Claim 11 (currently amended): A compact wooden smoking apparatus comprising:

a smoking apparatus body having a body top, a body bottom, and body external side walls;

5 wherein the body has a constant peripheral contour in cross sections taken in any plane generally parallel to the body top and body bottom;

a smoking material receptacle in the body having a smoking material receptacle opening at the body top;

10 a pipe receptacle separate from the smoking material receptacle; and

a lid for the smoking material receptacle, the lid having a lid top, a lid bottom, a lid width, lid depth, and lid external walls;

15 wherein the lid has a constant peripheral contour in cross sections taken in any plane generally parallel to the lid top and lid bottom; and

~~The compact wooden smoking apparatus of claim 1 comprising a~~
replacement lid section extending upwardly from the smoking
20 apparatus body bottom, the replacement lid section having a
constant peripheral contour in cross sections generally parallel
to its top and bottom, which constant peripheral contour
corresponds to the constant peripheral contour of the body, such
that when the replacement lid is attached to the body, the lid
25 and body are alignable such that the compact smoking apparatus

RCP 6014
PATENT

including body and replacement lid section has a constant peripheral contour in cross sections from the body top through the replacement lid.

Claims 12-14 (canceled)

Claims 15-28 (previously withdrawn)
